Dear Mr. Pannucci:

This letter is being sent to replace the letter dated January 21, 2021 which referenced the wrong application. The purpose of this letter concerns your application for a major permit modification for an expansion of the Bethlehem Landfill located at 2335 Applebutter Road in Lower Saucon Township, Northampton County. The proposed project involves overtopping of existing waste as well as placement of waste in landfill support areas which have not previously had waste placed.

Before the application is accepted for review, the Department will hold an informational meeting known as a Local Municipality Involvement Process (LMIP) meeting with municipal officials from areas potentially affected by the facility to inform them of the application. The meeting will be held virtually via WebEx on Wednesday, February 17, 2021 at 6:00PM, to discuss the various aspects of the application.

**If you would like to participate in the WebEx, please provide your name, phone number and email address to Erika Bloxham at [ebloxham@pa.gov](mailto:ebloxham@pa.gov).**

During the meeting, the Department intends to explain the permit application review process and the role for public involvement in the review and submission of comments regarding the application. The applicant or their consultant will explain the proposed project. The meeting will also provide an opportunity for the municipal officials to express their concerns and questions regarding the application.

Specific topics to be covered at this meeting will include:

- a. The proposed project
- b. The permit review process
- c. The Environmental Assessment Process
- d. Public participation in the permit review process
